

New Member - John Osbourne

April 2022

John was asked to provide a short bio to introduce himself to the membership.

John Osborne: Here is my short bio. I collected stamps when I was in high school and then stopped when I went to college. I am interested in U.S single stamps and plate blocks. I want to start collecting again but I am a novice compared to some of the members.

I am 75 years old and will have to evaluate how much time and money I want to devote to my new hobby of stamp collecting.

I grew up in Connecticut, went to school in D.C, lived in Mexico for 2 years where I started to learn Spanish and met my wife. We moved here in 1993. I love traveling and am starting to play golf again.

I consider myself fluent in Spanish.

John retired after having a career working in the Social Security administration.
